

How To Take a Perfect Color Match Photo with Leilani

PART 1:

- Remove all makeup on your face and wear a tank top/halter top/strapless top that shows your entire neck, shoulders, and upper chest
- Walk to and stand at a window in your house that has natural sunlight that shines through well; open the blinds/curtains and make sure all lights in the room are off
- Take 2-3 steps back from the window while still facing the window directly
- Wipe the front camera lens on your smartphone/tablet and open your phone to your device's camera (not an app's camera like FB/IG/Snapchat, TikTok, etc)
- Hold your phone at eye level and arm's length looking at the front camera lens and take a selfie (with or without smiling; do not use/add ANY filters)
